For Children of Every Age—Subjects from Jungle Animals to Atomic Energy! Built-in Dictionary for Young People! Books Every Family Must Have!

Yes, this is the one set of books that EVERY FAMILY with children must have. For it is the introduction to learning in dozens of broad subjects. And it contains one of the most important aids to a young person's education—a Funk & Wagnalls dictionary for young people built right into the set!

What makes these volumes superior to the usual children's encyclopedia, for example?

Remember that ALL books for young folks are read like story books. But an encyclopedia, which is intended merely for reference, and not for reading from cover to cover is certainly not an ideal story book. Every subject in an encyclopedia is split up into many parts in many different places in the set, and cannot be read as a connected story.

In these beautiful volumes of the STANDARD TREASURY, the noted editors have selected only FORTY broad subjects—what we call DEPARTMENTS—each really a book in itself. There are

two such departments in every volume, PLUS a portion of the dictionary placed between them.

These forty departments cover subjects which are irresistible reading for the boy and girl in your family. Each department contains many subjects, each of which would make a separate article in an encyclopedia—over a thousand such subjects in all!

And the dictionary, a portion of which is placed in every volume, ENCOURAGES USE—encourages the young person to continue reading into the dictionary. Thus the school boy or girl is not only given a new and important educational tool; but is taught to USE it. Such a dictionary, built into the set, is therefore far, far more important than any separate dictionary can be!
